

BIGSHRIMP AGENCY

bigshrimp has been established with sustained success for national and international photographers, agencies and industry clients since 1998. Aside from full production management, bigshrimp offers customers complete production services from one centralised source, including art buying, casting services, model booking and location scouting. bigshrimp stands for efficient handling, streamlined organisation and high quality production. In addition, the company offers three fully equipped rental studios in which clients have access to the necessary facilities to work professionally on all kinds of studio productions.

LOCATION SERVICE

Our competencies in location services vary throughout the requirements of our clients. We love challenges – no location is too extraordinary to find, we work budget compatible, handle with out delay and work within timings accordingly to briefings. Further on we administrate more than 1.000 locations in our location pool. Most of them are located in Northern and East Germany. Beyond that we are in close connection with location scouts and service companies in Germany, Europe and in some parts internationally. bigshrimp photoproductions are service provided by our scouts – therefore we are able to provide the client with all permits, location contracts and consulting. We manage to satisfy creative as well as technical demands at once and stay within the budget at the same time. Our website shows examples of scoutings, locations of our database as well as production referencies. To get in personal contact for costing, location samples or any other request our head office in Hamburg consults all clients throughout.

LOCATION POOL

On the basis of our constantly growing location pool we have the opportunity to provide our clients with locations in Northern and Eastern Germany ad hoc.

We offer many types of houses, appartments, loft spaces, public buildings, outdoor locations such as beaches, street- and harbour quarter views. Further on we have various gastronomy locations, hotels, industrial properties, shopping areas, offices, rooftops and a lot more location files immediate available in our database.

... it's just a small selection. Our location unit maintains around 1.000 locations to give campaigns and other projects the perfect ambience. Please feel free to contact us 24/7 for more information.
